Class Participation

During the term, students are encouraged to share marketing examples that they come across, either directly or via the media, with the class. For this reason it is recommended that students keep this class in mind when reading newspapers, watching television, reading magazines, while shopping, etc., as often the most relevant learning comes from discussing actual examples of Marketing behaviour. All class members will be expected to actively contribute to these discussions. The material covered in these discussions may appear on any of the course testing sessions.

Your course participation marks however will be scored by your team mates based on your contribution to the marketing plan project.

Peer evaluation (10%)

- All group members have 21 points to distribute among themselves according to their perceived participation and contributed effort toward the group presentation.
- All members must email the instructor their personal distribution of participation points, **DONE INDEPENDENTLY**, including what they feel they should get themselves -- the total must equal 21 points with only whole numbers being used, no fractions or percentages accepted (the higher the number of points, the higher the participation/contribution level)
- The points from all members will be totalled, and the member getting the highest score will receive the full 10% for participation.
- All other members will receive a mark based upon their ratio to the leader's score
- Any attempt to rig or fix the outcome of this total will be deemed as an infraction of the University's policy on scholastic offences and will result in **zero marks** for participation.
- Any member failing to submit marks for the group will receive **zero marks** for participation.

This process will be explained with an example at the beginning of the term.

Code of Behaviour

Students are expected attend all classes, and to remain in attendance throughout the entire class. It is also expected that students will remain focussed on the activities during the class.

Disruptive talking will not be tolerated. If you, as an individual student, find it necessary to leave the classroom during a lecture and/or presentation, do so quietly (i.e., for an emergency that cannot wait until the end of the class). If you return to a class that is still in progress, do so quietly. Groups of students leaving (and/or returning) together while a class is in progress will not be tolerated. Research shows that failure to attend class can have a negative impact on one's grade. All students are responsible for all course material.

Cell phones shall not be used (nor should they be left on) during class.
